SKILLS

Languages: Java, JavaScript, C, C++, R
Frameworks/Libraries: HTML, CSS, Bootstrap, NodeJS, React, Express.js, R Frameworks/Libraries:
Tools/Platforms: MySQL, MongoDB, Git, GitHub, RESTful APIs
Soft Skills: Problem-Solving, Teamwork, Adaptability, Quick Learner

PROJECTS

Library Management System

Jan' 2025 - Feb' 2025

- Developed a web-based Library Management System to streamline user authentication, book borrowing, and return processes.
- Implemented secure login and registration functionality using HTML, CSS, Bootstrap, and JavaScript.
- Integrated a digital library section, live search feature, and interactive UI to enhance the user experience.
- Optimized system performance and responsiveness using modern front-end and back-end technologies.
- Improved accessibility and convenience, allowing users to browse and shop for groceries effortlessly across different devices.

Portfolio Website

Dec' 2024 -Jan' 2025

- Designed and developed a personal portfolio website to showcase projects, skills, and achievements.
- Built using HTML, CSS, JavaScript, and Bootstrap for a responsive and interactive design.
- Implemented smooth navigation, contact forms, and dynamic project displays to enhance user engagement.
- Utilized GitHub for version control and deployment.

Sales Data Analysis Using Tableau

Aug' 2024 -Nov' 2024

- Conducted data analysis on sales data to identify key trends and patterns using Tableau.
- Cleaned and processed raw sales data in Excel before visualizing insights in Tableau dashboards.
- Developed interactive dashboards to monitor sales performance, customer demographics, and revenue growth.
- Utilized predictive analytics techniques to forecast future sales trends based on historical data.
- Improved decision-making by providing actionable insights to business stakeholders.
